WELCOME TO THE WORLD OF MOLUK!

GOOD TOYS ARE ABOUT WHAT YOUR CHILD CAN DO NOT WHAT THE TOY CAN DO

Our toys are an invitation to play - regardless of age and gender. They leave room for the imagination and empower children to invent their own games rather than consuming ready-made ideas. We passionately believe in the importance of active, open-ended play and design our toys, so they grow with the child and reveal new possibilities and uses across different ages. All MOLUK toys work together and complement each other.

PLAYING = LEARNING

When conceiving a new toy, we rely on the latest research from neuroscience and work in consultation with experts in child development and occupational therapy. To master complex tasks like reading, writing, or maths, it is crucial that children are exposed to a broad range of sensory stimulation in the first few years. They need to touch, move, and experience the world with their whole body and all their senses. Creativity, imagination and empathy are among the human skills that will never be replaced by machines. It is precisely these abilities that are nurtured by MOLUK toys.

SUSTAINABILITY

We use durable, high-quality materials that are 100% safe, easy to clean and encourage children to play outside with natural elements like water, sand or snow. All our toys are fully recyclable. No painted pieces. No composite materials that cannot be recycled. No PVC, no phthalates, no BPA. Most importantly: The toys are multifunctional and designed to last and engage and challenge children across each stage of their development. The resources and energy it takes to produce a toy always stand in relation to the play value and years of use you get out of it. In this regard, MOLUK toys have a stellar track record and minimal ecological footprint.

AWARDS:

- TOTY 2010 - Preschool Toy of the Year
- Dr. Toy 10 Best Active Products
- Swiss Federal Award for Design
- Toy of the Year - Good Toy Awards
- spiel gut

The multi-award winning Bilibo is widely regarded as one of the most innovative and versatile open-ended toys. Deceptively simple and magically attractive, Bilibo's iconic shell shape and bright colors immediately appeal to children. Bilibo arouses curiosity, engages the imagination and playfully trains basic motor skills and balance.

Both boys and girls find unlimited ways to play with Bilibo, using it to rock and spin in, hide under, sit on, tote with and peek through. Bilibo provides hours of fun, indoors and outdoors - all year round.

Made of high-quality, food-grade HD-PE, extremely durable, 100% recyclable.

ø12cm

Contains:

6 assorted Mini Bilibos
made of food-grade HD-PE,
durable, 100% recyclable
43013 classic colors
43014 pastel colors

Just like their big sibling, the colorful Mini Bilibos are durable and wonderfully versatile play objects that will accompany kids from their first year onwards. The Minis can be stacked and nested, they act as floating ducks, sand shovels, candy bowls, spinning tops, racing cars or scoops for snowballs... The only limit is your imagination. Now also available in gorgeous new pastel colors.

Bilibo Mini and Oogi are made for each other.

Bilibo Game Box 3+

Contains:

- 6 assorted Mini Bilibos
- 36 Bilibo Pixel™ color chips
- 1 elastic dice
- 1 Pixel Pouch to store chips
- Info leaflet with play ideas

43015

Take six Mini Bilibos, add a customizable, bouncing die with 36 color chips and you have a fascinating construction set for countless games and play activities that will engage the whole family. Match colors, play tiddlywinks, stack and balance, flick and aim, throw and catch, sort, count and learn, roll the dice and invent your own games!

A leaflet with basic play ideas is included to get the creative juices flowing.

Made of high-quality, food-grade HD-PE (Mini Bilibos), TPR (dice) and ABS (color chips).

Oogi Family

3+

43150

Oogi is an irresistibly tactile and wonderfully expressive new figure toy. With suction cup head, hands and feet, and long stretchy arms, it connects to other Oogis and any smooth surface.

Oogi leaves room for the imagination and invites children to explore and experiment while playfully training hand-eye coordination and fine motor skills.

Unlike traditional dolls for girls and action figures for boys, Oogi is gender neutral and fun for all ages.

Made of high-quality, food-grade silicone rubber.
Safe, durable and easy to clean.

The award-winning Oogi also shines at night. A cool glow-in-the-dark version brings out Oogi's show talent and highlights the iconic design of the figure.

Hold Oogi GLOW near a bright light to charge - then let the fun begin!

Oogi GLOW is made of high-quality, food-grade silicone rubber. Safe, durable and easy to clean.

oogi[®]

Oogi Pilla

length: 16cm

3+

43230

Oogi Pilla is an endearing little creature with five suction cup feet in progressively smaller sizes, which allow kids to experience the distinct suction strength and pitch of each. Stick it to any smooth surface and rip it off to hear a rapid cascade of popping sounds. Pilla is great for training fine motor skills and irresistible like bubble wrap.

Pilla and Bongo are made of high-quality, food-grade silicone rubber.

Oogi Bongo

height: 10cm

3+

43220

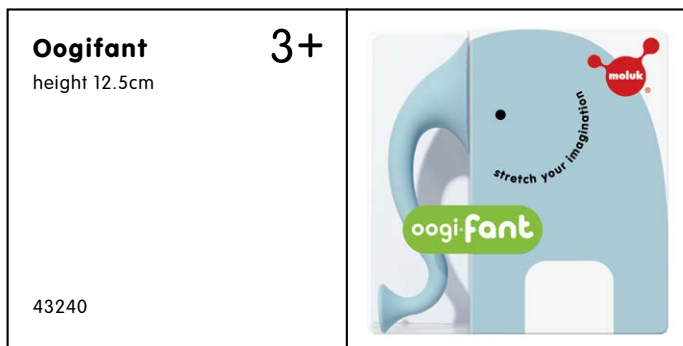

Oogi Bongo lets children experiment with expression, movement, and sound. Filled with coins or other objects, Bongo becomes a rattle. In the bathtub, it splashes water. Squeeze Bongo's bubble-shaped body to create suction that lets it stick to your forehead, and discover many more ways to interact with this unique character.

Oogifant is compatible
with all other MOLUK toys.

Oogifant is all you need to turn everyday objects into elephants. The tactile and highly elastic silicone trunk has suction cups on both ends that attach to any smooth surface. Hilarious moments and shared laughter are guaranteed.

Made of high-quality, food-grade silicone rubber.

- Junior Design PLATINUM Award
- Parents' Choice GOLD Award
- PARENTS Best Toys 2019
- Tillywig 2019 PARENTS' FAVORITE PRODUCTS

Oibo is an elastic, stackable, rollable, squeezable, easy-to-grip sensory toy for babies and kids of all ages. Oibo's geometry merges a sphere with a cube - combining the action and fun of a ball with the educational benefits of a building block. Like all MOLUK toys, Oibo grows with the child. It shines as an elegant grasping and teething toy for the baby. Toddlers will enjoy how Oibo bounces and rolls. Its soft material is perfect for first throwing and catching games. By stacking and aligning the pieces, kids learn about geometry while training hand-eye coordination and fine motor skills. Oibo collapses when you accidentally step on it and pops right back into shape.

Made of high-quality, food-grade silicone rubber.
Safe, durable and easy to clean.

Hix is an intriguing construction toy consisting of four convertible cones made of elastic silicone rubber. Each cone transforms into four basic shapes which can be stacked and nested in countless different configurations. Hix is a delight to fidget with and makes geometry accessible and fun for all ages. It playfully trains visual-spatial ability, hand-eye coordination, and fine motor skills.

Finally, you have smart building blocks that don't hurt when you accidentally step on them nor make any noise when tumbling down.

Made of high-quality, food-grade silicone rubber.
Safe, durable and easy to clean.

Mox is a ball with a big mouth. It likes to talk, laugh, sing, and most of all, it likes to eat. It eats marbles, coins, and other things that rumble nicely in its stomach. Mox also enjoys rolling, being thrown and caught, or even juggled. Unlike any other ball, it has the ability to balance and form towers together with its siblings. Mox is quite a character and has many secret talents that just wait to be discovered.

Mox is made of high-quality, food-grade silicone rubber. It is easy to grasp for small hands and perfectly suited also for babies.

Tulu reinvents the building block. Instead of square cubes, you can now stack balls and other round objects – Tulu provides the missing link. In classic MOLUK fashion, the flared tube becomes a versatile play object for countless games. Stack, roll, or nest the pieces! Thread a string or cloth through them! Combine them with Bilibo Mini and other MOLUK toys to create even more adventurous constructions, or use them as open-ended accessories in pretend play! You will be astonished at how many possibilities your child will discover with this deceptively simple shape.

Tulu is made of high-quality, food-grade silicone rubber. It is easy to grasp for small hands and perfectly suited also for babies.

Safe, durable and easy to clean.

43410 4-set tropic colors

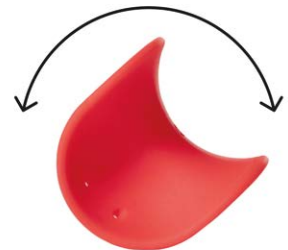

Ulu is an elegantly curved play shape reminiscent of flower petals or fortune cookies. Its ingenious geometry allows it to roll back and forth in two different directions - but it never rolls away. The soft shell made of elastic silicone rubber is irresistibly tactile. Ulu is a great grasping and teething toy for babies and, with its two eyes, becomes a cute little character in imaginative play. Pinch and squeeze Ulu to develop fine motor skills! Let it wobble to keep your baby's attention! Or stack and nest several pieces like a rainbow designed by Escher!

The popular Plüi Rain Cloud and the iconic Sunny Brush are a perfect match. Together, they add poetry and magic to bath time while providing the perfect props to explain the cycle of water to your little ones. There is always sunshine after the rain.

MOLUK - UNIQUE LIKE YOUR CHILD

In a time where everything is getting more virtual, MOLUK creates toys that are totally manual, toys that get children to move and explore, toys that stimulate their senses and minds.

There are no ON and OFF switches, batteries or complicated instructions.

MOLUK toys are powered simply by a child's imagination.

All MOLUK toys are made without PVC, BPA, phthalates, latex, or lead. They are regularly tested by independent laboratories and meet and exceed the latest European and US safety standards.
